OBJECTIVE

Recent MCA graduate with practical experience in building responsive, user-focused web applications using React.js, Bootstrap, and REST APIs. Seeking a Frontend Developer role to contribute to innovative UI/UX projects and grow as a professional.

EDUCATION

2023 - 2025 Bharathidasan University	**Master of Computer Application** A.Veeriya Vandayar Memorial Sri Pushpam College, Poondi, Thanjavur
2020 - 2023 Bharathidasan University	**Bachelor of Computer Science in CS** A.Veeriya Vandayar Memorial Sri Pushpam College, Poondi, Thanjavur
2020 State Board	**HSC** Sri Shanmuka Matriculation Higher Secondary School, Mannargudi
2018 State Board	**SSLC** Sri Shanmuka Matriculation Higher Secondary School, Mannargudi

PROJECT

Feb,2024 - Apr,2024 Academic Project	**Doctor Online Appointment System** Technologies: PHP, HTML, CSS, MySQL (Workbench), XAMPP · Developed a web-based appointment booking system for patients to schedule consultations with doctors. · Designed responsive UI and connected the backend using MySQL Workbench through XAMPP.
Nov,2024 - May,2024 Academic Project	**Library Management System** Technologies: ReactJS, Bootstrap, CSS, Node.js, Express.js, MySQL (Command Prompt) · Built a full-stack web application for managing books, users, and borrow/return operations. · Created role-based logins (Admin, Librarian, User) and dashboards for each.

ACADEMIC PROJECT

Mar,2025 - Mar,2025 Personal Project	**Movie Request Telegram Bot** Technologies: Python (Flask), HTML, CSS, Bootstrap, MySQL, Render.com · Developed a Telegram bot that responds to user movie requests with appropriate download/streaming links. · Deployed the service using Render.com for easy access.
Apr,2025 - May,2025 Personal Project	**Question Paper Creation & Online Examination System** Technologies: Python (Flask), HTML, CSS, Bootstrap, MySQL Institution: A.V.V.M Sri Pushpam College · Designing a web-based platform for faculty to create, manage, and store question papers securely. · Implementing an online examination module with real-time evaluation and student login features.

SKILLS

- HTML
- React
- Mockito
- MongoDB
- Senior Tamil Typewritter

- CSS
- Node
- Gradle
- Git
- Senior English Typewritter

- Bootstrap
- Express
- Flask
- GitHub

- JavaScript
- JUnit
- MySql
- MS Office

CERTIFICATION & ACHIEVEMENTS

Software Developer Job Simulation - CITI Technology Software Development [May 2025] Feature implementation, debugging, collaboration.

Software Engineer Job Simulation – Hewlett Packard Enterprise [May 2025] Gained experience in system design, agile workflow, and real-world engineering challenges.

HP LIFE – AI for Beginners - [May 2025] Gained foundational knowledge in Artificial Intelligence, its real-world applications, and ethical considerations.

Career Essentials in Generative AI - [May 2025] Developed essential skills in generative AI tools and concepts, including prompt engineering, ethical use of AI, and real-world applications.

Postman- [May 2025]   Gained hands-on experience in API testing, collection creation, and automation using Postman.

MongoDB University - [May 2025]   Learned efficient data operations using MongoDB's Bulk API for large-scale document management. Acquired foundational knowledge in messaging APIs

Twilio - [May 2025] Twilio console, and real-time communication workflows.

Tamil Senior Typewritter & English Senior Typewritter
